CALLOUTS

- 01 Header band · 15 cm**
Signal Red #E63946. snaprint wordmark centred, white.
- 02 Touch panel · 15.6"**
Active area 34.4 × 19.4 cm on off-white face. Epson WF-C5890 mounted directly behind (42.4 × 57.9 × 45.0 cm operating).
- 03 Print collection slot · 7 cm**
Sits below a 15 cm routing / clearance gap. Off-white recess, charcoal edge.
- 04 Ballast base · 89.8 cm**
Enclosed lower body, intentionally empty. Weighted plate for tip stability — printer mass now sits higher.
- 05 LED edge stripe**
Full-height red LED, left edge. Wayfinding + status.

PALETTE

 Signal Red #E63946	 Charcoal #111110
 White #FFFFFF	 Off-white #F5F5F5

EXTERIOR

W 55.0 cm
D 65.0 cm · see note 04
H 176.8 cm

FRONT ZONES (Σ = 176.8)

01 Header band	15.0
02 Screen face	50.0
— Routing gap	15.0
03 Collection slot	7.0
04 Ballast base	89.8

NOTES

- 01** No front door. Service via lockable rear panel (printer, paper, ink).
- 02** Side cutout for power + data cable entry. Position TBD on side elevation.
- 03** Weighted base plate mandatory — CoG has risen with printer relocation.
- 04** **Open:** depth 65 cm is tight — printer 57.9 cm operating + screen mount + rear-door clearance. Grow to **70-73 cm** pending decision.
