

self-service print kiosk · product design master sheet

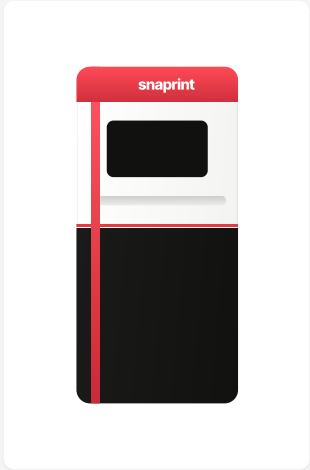

one bold stripe. head to toe.

The signature red runs the full height of the machine — the same single design decision that anchors the logo, the kiosk, and the website. White body, charcoal chassis, red as the only accent.

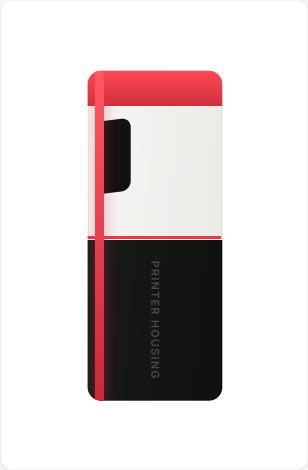

- **full-height LED stripe**
1.5 cm red glow on the left edge — visible across the hall
- **15.6" touch panel**
active area $\approx 34.4 \times 19.4$ cm, Epson WF-C5890 mounted directly behind
- **no front door**
lockable rear service door for printer + paper/ink refill; side cutout for power & data
- **weighted base plate**
 ~ 90 cm enclosed lower body, mostly empty — ballast for tip stability

176.8 **30s**
